Youth Entrepreneurship Policy Design and Delivery

YEPA Online Workshop Series | 19 June 2025

About the OECD-EU Youth Entrepreneurship Policy Academy (YEPA)

The OECD-EU Youth Entrepreneurship Policy Academy (YEPA) is a peer-learning network that seeks to strengthen youth entrepreneurship policies in the European Union (EU). This new initiative aims to strengthen youth entrepreneurship policies and programmes by raising knowledge about the barriers faced by young people in entrepreneurship and facilitating exchanges between policy makers, experts and young entrepreneurs on “what works” in youth entrepreneurship policy. This new initiative builds on an existing collaboration on [inclusive entrepreneurship](#) and [social entrepreneurship](#) undertaken by the European Commission and the OECD, which includes the award-winning report series [The Missing Entrepreneurs](#).

About Workshop #6: Policy Design and Delivery

This workshop is the sixth and final workshop in the YEPA workshop series. The 3-hour online workshop will examine how to effectively design and deliver entrepreneurship policies that are tailored to the unique needs of youth entrepreneurs. The workshop will include presentations from the OECD, insights from policy makers and experts as well as case studies on successfully implemented youth entrepreneurship policy. The workshop will also explore how to integrate monitoring and evaluation mechanisms into the design of youth entrepreneurship policies and programmes. The workshop will feature roundtable discussions and dedicated time for networking, offering participants the opportunity to exchange insights, share best practices and build connections.

How participants can prepare for the workshop

Participants are expected to prepare for the workshop by:

- Review the discussion note
- Consider how public policy can be better adapted to support (potential) young entrepreneurs in your country
- Prepare a question on something that they want to learn

Questions to consider

- What are the different policy approaches being used to support young people in pursuing entrepreneurship?
- What are common policy challenges and/or failures that should be avoided when designing and delivering new youth entrepreneurship policy?
- What are key success factors for youth entrepreneurship policy?
